PRICES
for Trip ideas

● Prices are quoted per person, based on two people sharing a twin room; single supplements are available on request.

● Departure date generally determines pricing. If your trip straddles two pricing bands, then request a precise quote.

● Credit card payments will incur a 1.5% processing charge (2.5% for AMEX). This may change if the credit card companies change their charges. You will always be advised of this at the time of payment.

● An additional voluntary amount (currently £20) will be added to your invoice to offset the carbon emissions caused by your international flights. This is not compulsory; if you do not wish to pay it, then simply subtract it from your final payment.

BRITISH AIRWAYS

Flight notes

Note these itineraries have generally been based on lowest fares available. These are excellent value, but sell out swiftly – so booking early is essential. If you book later, and miss these fares, then a supplement will be required.

● Prices are quoted per person, based on two people sharing a twin room; single supplements are available on request.

● Departure date generally determines pricing. If your trip straddles two pricing bands, then request a precise quote.

● Credit card payments will incur a 1.5% processing charge (2.5% for AMEX). This may change if the credit card companies change their charges. You will always be advised of this at the time of payment.

● An additional voluntary amount (currently £20) will be added to your invoice to offset the carbon emissions caused by your international flights. This is not compulsory; if you do not wish to pay it, then simply subtract it from your final payment.

Flight notes

Note these itineraries have generally been based on lowest fares available. These are excellent value, but sell out swiftly - so booking early is essential. If you book later, and miss these fares, then a supplement will be required.
